DOLPHIN EXCURSION : 35 usd per person

FISHING : 75 usd per rod

DIVING

Fanjove provides BCD, regulator, wet suites, mask, fins, weights and 12 I aluminum tanks. At the moment of reservation inform the tour operator about your interest to dive at Fanjove, with your sizes for fins and wet suits.

Dives are from the boat and there are no deco dives. Water temperature is 27/29 C and visibility can reach 30 m.

Dive Fanjove in a stunning tropical paradise in the Indian Ocean that is only just being discovered. The perfect marine metropolis where humpback whales migrate, sea turtles lay eggs, and tropical fish dance before you. A great concentration of biodiversity that has yet to be revealed. The reefs show remarkable resistance to global marine threats, and further research and exploration of the area is vital to help replenish the reef and support healthy ecosystems and sustainable fishing practices for the local villages. Each dive is likely to be at a completely new dive site with sightings of new fish, shark, mammal and invertebrate species on nearly every dive. Varied marine landscapes such as underwater pinnacles and gardens of cabbage coral with 20+ meter visibility make for a rare chance to experience an area that no one has ever explored before.

SNORKELING

Relax in Fanjove's blue waters while watching the marine world pass you by. Butterfly fish, Angelfish, Damselfish, and a variety of corals and invertebrates are just off of Fanjove's doorstep. Go out by yourself for a leisurely exploration, or let us take you in a small boat and show you all the secret spots!

Ask the manager for the equipment, if you are not experienced we recommend to snorkel guided.

SAND BANK EXCURSION

At low tide we have access to a secluded sand bank that offers snorkeling and chance to have a local lunch with grilled fish prepared privately right in front of you. Relax in the shade and wait for dolphins to come by, or jump in the water to cool off, until the sand bank disappears underwater with the incoming tides.

For the lover of extreme romanticism, nothing is better than waiting sunset with a cold bottle of wine in the middle of the ocean!

DHOW SAILING

Enjoy the sunset and views of Fanjove from the traditional East Africa coast sailing vessel. A local boat will set sail before sunset and accompanied by locals from the village nearby and one of our waiters, you can enjoy a sundowner while experiencing the timeless beauty of the wooden dhow.

DOLPHIN EXCURSION

Fanjove is lucky to have different dolphin species as our neighbors. Spend a couple of hours on the boat to try and see either Spinner Dolphins or Bottlenose Dolphins and with any luck you may be able to briefly swim with them.

FISHING

Try your luck at fishing on Fanjove's reef. With basic fishing equipment you can catch barracuda, jack, or even a kingfish. Fishing is catch and release but if the fish is injured or the lure is stuck we can have our kitchen prepare it the local way using a charcoal grill.

Note – Fanjove Private Island **do not have credit card facilities.** Could we kindly ask you when arranging your travel money that tourism establishments in Tanzania generally accept only Tanzanian Shillings and USD for extra payments such as drinks, laundry service, tips and gift shop purchases. Please also note that **USD notes dated pre 2003 are not accepted in Tanzania.**
