DAY 1 • 2 • 3

This period sets the Mara River as the stage for millions of wildebeest exploding across the water in their legendary migratory crossings, and as our camp is mere minutes from the action, it's the perfect base for spectating this profoundly thrilling spectacle. The herds double as a sort of movable buffet that attracts fantastic predator action, all on the backdrop of an endless golden savannah – the quintessential Africa of our imagination, and a classic spot to kick off your safari experience.

DAY 4 • 5 • 6

On foot you will feel the opening of your senses, sharpening in response to the immediacy of the wilderness: vision, sound, smell all respond to the challenge of perceiving and reading the primordial signals of the bush. Alex, in company of traditionally attired and armed Hadzabe guides, will teach you to see the landscape through their eyes, and immeasurably enhance the richness of the way you experience it. Drink in the active participation of engaging with your surrounds, and cultivate a fuller appreciation of the myriad intricacies that make up the magic of the bush. By night, take adventure back to its roots with fireside meals and bedrolls under the stars, and relish the stripped-back simplicity that is the beauty of flycamping.
