We make use of various villages for equal distribution of income derived from these activities. The closest village is 4 km from Tsumkwe town and the furthest village is 30 km north from town towards the Khaudum National park. All the villages are accessible by 2x4 vehicles, trucks, and small busses.

****Visitors must drive themselves to the San village in their own vehicle****

Payment for activities must be made directly with the reservations office when booked together with accommodation

The following should be noted when participating on activities:

Take enough drinking water to stay hydrated, between 2 to 5 Lt per person. If you do a full day activity you should take a snack or lunch pack along. You can order this at the lodge the day before your activity.

Clothing for the activity:

Wear comfortable shoes and light clothing that will protect your neck and arms from the sun. Bring a wide rim hat and sunglasses and use sunscreen on your face.

Children:

Small children younger than 5 years are not recommended for these activities. Walking a distance in the veld while it is hot will be challenging for younger children. Children between the ages of 5 years up to 12 years pay half price.

Activities
