

Tumaren Camp

Tumaren Camp is a beautiful tented camp set on the edge of an expansive plain looking south towards picturesque granite inselbergs that define the landscape. The camp offers the perfect base to explore that natural history of this special part of Laikipia. Aside from the walking there are a number of activities including rock climbing, game drives, swimming, beading and local cultural visits. This comfortable camp is also often popular as a first or final destination for those venturing out on a mobile walking adventure.

The Camp:

The camp looks out over a salt lick and waterhole which is frequented by a variety of wildlife. The birdbath provides constant entertainment and color in front of the sitting and dining tents. Offering two dining areas, Tumaren is the perfect place to relax and dine with friends and family. The smaller intimate mess tent offers smaller groups the option of a private area to enjoy meals and rest during their safari experience. There are 7 spacious sleeping tents at Tumaren and 4 of these can be made up as family tents. Each tent has its own en suite bathroom with running water and you can sit on your veranda enjoying the wildlife as it wanders past. There is a 20 metre swimming pool to the side of the camp and again the views are across the sweeping plains.

Activities:

At Tumaren Camp, we prioritise our guests' experience above all else, and our team of expert Samburu or Masai guides ensure that every day is tailored to their desires and interests. Each group have their own private guide and he takes into account guest interests, abilities and the local calendar and wildlife patterns when planning each day's activities.

We understand that our guests may have different interests, and therefore, we offer a variety of activities aside from walking. These include camel rides, top rope rock climbing, game drives, birdwatching, bush breakfasts/picnics, tracking, beading, swimming in the river or the swimming pool, jogging, biking, football, ultimate frisbee and cultural visits to the local market, school or homestead. For those with a particular interest in primates, we highly recommend joining a morning walk with the local troupe of habituated Baboons, which have been studied over the past 20 years.

Our Rock Climbing is suitable for varied ages and abilities. We have bolted and cleaned 4 different rock outcrops and each one is bolted with many rock climbing routes. The top-rope climbs range from beginner to advanced levels and are guided by our highly trained climbing team. Our guides have been guiding rock climbing for well over 10 years, and this activity has become hugely popular among the majority of our clients not only kids but also adults.
