# ENVIRONMENTAL

We have taken a uniquely sensitive approach and built each villa and the main lodge complex on small concrete pads to ensure our building imprint has minimum impact on this pristine and beautiful land.

Completely off the grid, all electricity at Lepogo Lodges is self-generated with an original bespoke solar walkway.

In addition, the Lepogo Lodges' Carbon Offset Programme neutralises each guest's carbon footprint from the moment they leave their home until their arrival at our lodge and back home again.

---

WE CALCULATE OUR GUESTS  
CARBON FOOTPRINT AND THEN OUR  
GUESTS CHOOSE WHICH PROJECT THEY  
WOULD LIKE US TO DONATE THEIR  
CARBON FOOTPRINT COST INTO.
