

NAMIBIA

Ondili

Lodges in the most beautiful regions of Namibia

ONDILI NAMIBIA

Ondili maeumbo. In the Oshiwambo language widely spoken in Namibia, this means: I am at home.

Driven by this deeply felt sentiment, I began making my favorite regions accessible to guests and developing conservation efforts around the turn of the millennium. With Ondili, my consistent goal has been to ecologically integrate tourism into each respective region.

In my opinion, all Ondili Lodges are located in Namibia's most beautiful regions, although there are many other most beautiful regions in the country. Each Ondili Lodge is situated in a private nature reserve, often adjacent to one of the large national parks. The prominent locations, showcasing the essence of each landscape, make the lodges and camps themselves

highlights of a journey. Their locations, along with those of the Boutique Guesthouses, allow for connecting Namibia's tourist highlights on a round-trip. My company philosophy is focused on promoting nature conservation in Namibia sustainably through high-quality tourism offerings. The economic goals of the 5 Lodges, 2 Camps, and 2 Boutique Guesthouses are entirely aligned with this mission. With Ondili, I reinvest the entire annual profit into the creation and maintenance of the Ondili nature reserves.

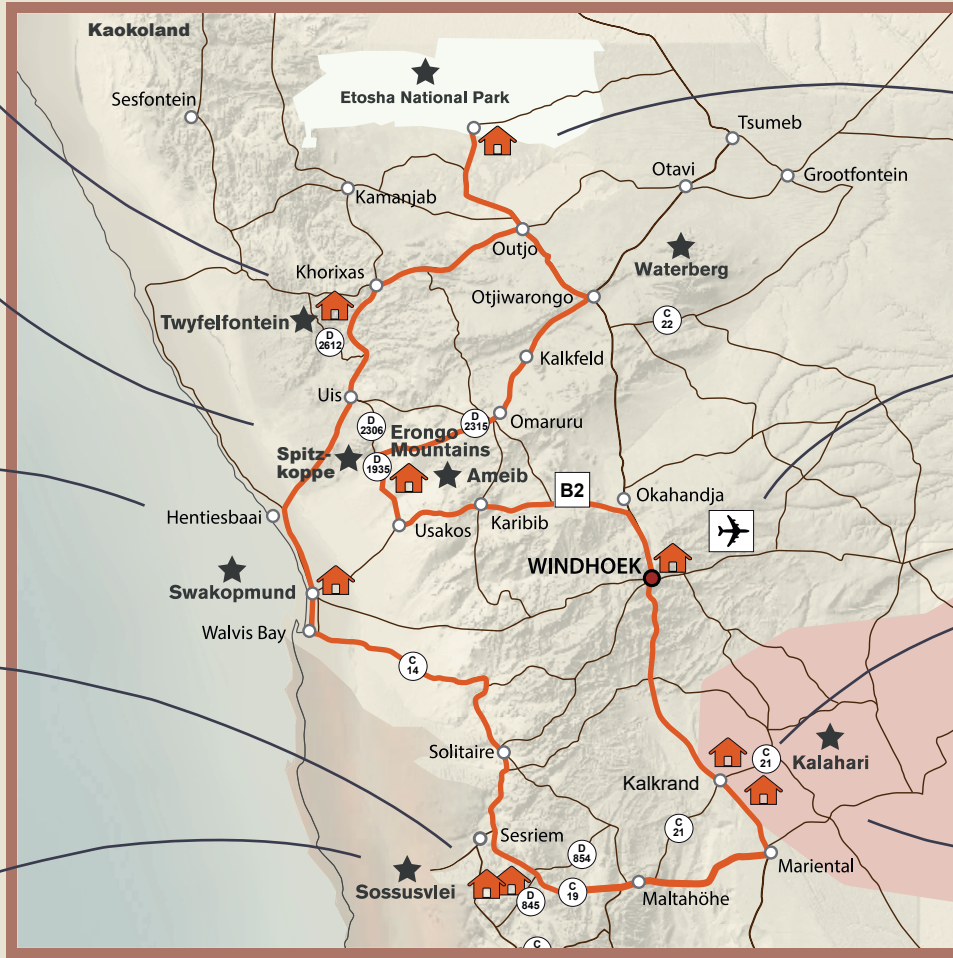

Since the completion of the first lodge, with every guest room built in an Ondili Lodge, I have created at least 1000 hectares (10 square kilometers) of new

reserve land in Namibia and maintained existing reserves. Ondili will continue to adhere to this concept in the future. All lodges generate electricity and hot water locally through their own solar systems. Vegetables and herbs are locally produced at all locations. The firewood for the Ondili Lodges comes from the necessary de-bushing in Ondili's northern nature reserves. The local population benefits from employment opportunities in the nature reserves and in ecologically sustainable agriculture.

Every guest, through their choice of Ondili, becomes a supporter of a nature reserve and thus indirectly contributes to the protection and preservation of nature in Africa.

Hermann Rohlf, Founder

- City tours
- Museums
- Shopping
- Restaurants
- Relaxation
