

MARINE ECO TOUR FACT SHEET

Ocean Odyssey, Close encounter whale watching tours and Eco Marine tours, is passionate about showcasing Knysna’s natural assets. This breath-taking Garden Route setting provides us with the ideal platform from which to introduce visitors to our rich aquatic heritage; an iconic estuary and adjacent coastline and the complex web of life that is found here. We are the proud holder of a prestigious Blue Flag status, an international award given to beaches, marinas and nature-based boat excursions that meet a standard of excellence in the following categories. Environmental Education, Environmental Management, Safety and security, and water quality.

Where we are: Conveniently located on the popular Thesen Island within walking distance from the Knysna Quays and the centre of Knysna town. Our vessels are accessible by walk-on jetties on Thesen Harbour town which is a Blue Flag Marina.

MARINE ECO TOUR

Departing from Thesen Island Marina, this spectacular cruise takes you across the Knysna lagoon and out to sea through the Knysna Heads to explore the coves, caves and bays of our rugged and beautiful coastline. Ocean Odyssey’s Marine Eco Tour serves to highlight both the geological characteristics and the biodiversity of Knysna’s estuarine and marine environment. On these tours, we often see an abundance of marine life. Such as dolphins, seals, penguins and pelagic bird life.

Vessel:	Odysseus & Oyster Catcher
Pax:	Total 37 pax – 25 pax on Odysseus & 12 pax on Oyster Catcher in comfortable cinema-style seating

What you may see:	<ul style="list-style-type: none"> • Bryde’s whales • Common, Bottlenose & Humpback dolphins • Cape Fur seals, penguins & Pelagic birds

WHAT TO BRING

Camera or Camcorder

Make sure your batteries are fully charged or you have a spare set to ensure you don't miss the "money shot". And don't forget your memory card.

Rubber-soled shoes

A moving vessel is not usually the best place for high heels. Sneakers/takkies have much better traction as sometimes the decks get wet and slippery even though we have non-slip rubberising on our vessels.

Warm clothes

Ideally you should wear a nice warm jacket or hoodie as it can get really chilly out on the ocean. We will supply you with a blanket if the day is colder than normal.

Sunscreen and Sunglasses

On sunny days you can get quite a sunburn and sunglasses will help protect your eyes from glare off the water as you scan the horizon looking for whales and dolphins.

SAFETY

The safety of our guests and crew are our number one priority and each tour commences with a safety briefing prior to departure. Each guest is supplied with the latest approved commercial PFD/Life jackets (automatic inflatable and super comfortable) and a bottle of water.

IMPORTANT INFORMATION

Most of our trips are ocean going trips and are weather and sea conditions permitting. Only the skipper of the vessel can make a judgment call on these conditions, which are determined on the day of the trip. Conditions are influenced by tide, wind direction, wind speed and sea swell, therefore going out through the Knysna Heads is never guaranteed.
