

# FARM MAP

## 1. SPIER FOOD GARDEN

Since 2013, our food garden has steadily grown to provide a daily harvest of nutritious fruit, herbs, salad greens and vegetables that are sold in the Farm Café and used in kitchens across Spier. Come for a walkabout or book a self-harvesting experience. Look out for our natural pest control team of Indian Runner Ducks!

## 2. EAGLE ENCOUNTERS

It's part of our plan to use our land for nurturing our communities and the environment. At our Eagle Encounters raptor rehabilitation centre you'll learn how majestic birds of prey help keep Spier's ecosystem in balance. Raptors and eagles are our friends in natural pest control. These magnificent creatures are thrilling to watch.

## 3. SEGWAY TOURS

Ever been on a Segway before? Whizz around the farm on a two-wheeled, self-balancing electric vehicle, learning about Spier's regenerative farming on an off-road adventure. View tour times and book on [www.segwaytours.co.za](http://www.segwaytours.co.za) or visit the segway desk for more info.

## 4. RIVERSIDE PICNIC AREA

Unfold your blanket, unpack your picnic and enjoy the fresh air at our new Riverside picnic area – a serene spot dotted with massive granite boulders alongside our farm dam. From here, the views of the Helderberg mountains are magnificent. Being close to the river is serene and soothing.

## 5. WINE TASTING

Pop into the Tasting Room on the banks of our Spier dam to taste our award-winning wines and delicious charcuterie and cheese, or olive and cheese platters. Take time out in the airy lounge area or find a spot on the patio to enjoy the art and views of the dam and Helderberg mountains. What's not to love?

## 6. CRAFT MARKET

From fridge magnets to true masterpieces, Spier Craft Market offers art and craft treasures made with incredible imagination and interesting materials like mosaic, beads, textiles and ceramics. Browse a little and try your hand at designing something special with a 'make it yourself' experience, guided by a local crafter.

## 7. FARM CAFÉ

Chef Hennie is the man behind the making of our ready-to-go deli food, for building your own picnic or to fill your shopping basket and take home. (Then re-order online when you need more.) If you're looking for Farmer Angus favourites, you've come to the right place.

## 8. PICNICS

Collect your pre-ordered seasonal picnic from Spier Picnics. Didn't book? Head to Spier Farm Café to assemble your own yummy spread.

## 9. RIVERHOUSE

Showcasing more than 400 Creative Block artworks from both up-and-coming and established artists, the Riverhouse is all about local creativity, and hosting events like our wine blending experience. Gather together a group of friends or colleagues to put your collective winemaking skills to the test and create an original blend - then design your own great label!

## 10. ELEMENTAL PLAY GARDEN

The play garden is technically for the kids, but we won't judge your adult selves for loving it too. We have divided it into quadrants representing the four elements – water, air, fire and earth – intersected by a spiralling waterway. Watch your young adventurers slide, swing, splash and crawl around this unique playground.

## 11. THE WERF

The Werf is Spier's historical farmyard. A beautiful place to enjoy food, family, friends and nature. Let the kids explore while you relax and enjoy good food and wine under an ancient oak.

## 12. MANOR HOUSE

Our 200-year-old Manor House, dating all the way back to 1822, has been restored to combine architectural history with practical functionality. Exciting new developments are underway in this space!

## 13. OLD WINE CELLAR

Spier's Old Wine Cellar is South Africa's oldest dated cellar building (1767). It is currently home to rotating exhibitions of Spier's contemporary art collection.

## 14. VADAS SMOKEHOUSE AND BAKERY

All Vadas dishes use fresh, ethically and locally sourced ingredients. Cooking pasture-reared meats with fire and smoke is the main attraction but there are plenty of organic vegetarian options, freshly baked breads, pastries and Vadas's now famous pasteis de nata to choose from.

## 15. SPA AT SPIER

Need to remember how complete relaxation feels? Head to the spa for a day of self-care – from facials to massages.

## 16. SPIER HOTEL, RESTAURANT AND WINE BAR

Our family friendly hotel is like a little village dedicated to farm peace and tranquillity, with a meandering river running through it. Beyond the hotel foyer, pull up a chair at our wine bar and enjoy drinks, snacks and the magnificent art on the walls - or settle in around a table for a farm breakfast, lunch or dinner at Spier Hotel Restaurant.

### ENVIRONMENTAL RESTORATION WORK

At Spier, our wine glass is always half-full. So when the current Baden Powell provincial roadworks began, we decided to optimise our farm's water systems and create additional homes for the birds, bugs and bees. Thanks for being a part of our journey.
