

SANCTUARY

NAM NGUM BEACH RESORT

REDUCING OUR ENVIRONMENTAL FOOTPRINT

Protecting the environment is a key part of our commitment to environmental sustainability. In order to reduce our environmental impact, we have implemented initiatives for our employees and work alongside partners to **proactively play our part** in reducing our environmental footprint. Additionally, we also believe that people are the key to delivering change and wish therefore to include our valued guests in our sustainable practices.

In order for our rooms to be **water savers**, we only change the bedsheets and towels **every 3 days** to avoid further use of laundry detergent and water. Should you need to replace the linen within this given time, please place this card on the bed. Towels that would need changing may be placed, directly on the bathroom floor.

You can help us and minimise your water use. Every drop counts!!

As for the rooms to be **energy savers**, we will ask you to switch off lights and AC when leaving the room. Please also be sure that door and windows are closed when air conditioner is on.

As to reduce **single-use plastic consumption**, we provide a glass jar you may refill freely at the drinking water stations.

To **control waste management**, we do not suggest bathroom amenities to the rooms. Should you nevertheless be in need, please ask a member of staff.

We thank you for your kind understanding and support.

The Sanctuary Nam Ngum Beach Resort Team

Should you wish to find out more about our initiatives, please ask a member of the team or scan the QR code below to access our full CSR policy.
