ACTIVITIES FOR CHILDREN

Each day there are two game drives, early morning and late afternoon. These game drives are broken up with a drink and snack break. During the middle of the day, there are various activities for the children.

Spoor Identification & Tracking - Tracking of small animals with your tracker and guide: find our Small 5. This concentrates on teaching children the different spoor and droppings of animals as well as tracking techniques. Children can be taught how to follow animals and look for distinguishing signs.

Plant Uses - Plant identification as well as the medicinal and practical uses of these plants. Children can collect different plants during their walk and discover what can be used as substitutes for toothbrushes, toilet paper etc.

Bird Watching and Call Identification - Identify the different species of birds and see how many they can remember.

Ant Lion Trapping - a test of dexterity and patience.

Photography Lessons - bring your own camera and learn from your ranger.

Stalking Giraffe - how close can you get..!

Mud Baths - it's a messy affair!

Butterfly & Bug Catching - Find the smaller creatures such as butterflies, lizards, etc.

Picnics In The Bush - Enjoy a picnic lunch where you can investigate the nearby surroundings and collect goodies for your scrap book.

Collection & ID Of Wildlife - leaves, insects, dung etc and keeping of a scrap book.

Traditional Hair Braiding - Have your hair braided traditionally by one of the Tsonga ladies.

Kitchen Activities - Cookie or cupcake decorating.

Star Drives - Go on a night drive and learn about the stars.

Frogging - Catch and identify frogs. Find them in their transition stages from tadpole to mature frog.

Books & Games - African story books and educational children's books and games can be found in the library.
