Guided walks and cycling experiences

A guided nature walk or cycle is a magical alternative to a Big Five game drive. This adventure makes full use of all your senses, allowing you a deeper connection with the African bush.

1

NATURE WALKS

As part of a game drive, or a few hours over the middle of the day, a nature walk is an opportunity to connect with the African bush and experience it on the same level as its animal inhabitants. Watch birds, explore a dry river bed, walk in the footsteps of zebra or giraffe, sit in stillness in the shade of an ancient tree, unravel the stories behind animal tracks, or simply stretch the legs.

2

BIG GAME VIEWING WALKS

Led by an expertly-trained ranger and tracker team, a Big Game Viewing Walk offers the chance to track and view certain Big Five animals on foot. Done in such a way that the animals never know that you are there, Big Game Viewing Walks ensure an undisturbed natural experience viewing these creatures in their natural habitat while ensuring safety, as they never feel threatened by your presence.

3

SPECIALIST WALKING SAFARIS

Enjoy the excitement of a Big Game Viewing Walk, the tranquillity of a Nature Walk, or any combination of the two, as your specialist ranger and tracker tailor your experience to suit your preferences. Whether it be to follow an animal for hours or discover the unique plant species growing on the reserve, a Specialist Walking Safari offers the opportunity to experience Africa at its wildest and most personal.

4

BLACK RHINO TRACKING

Tread along the very paths black rhinos roam free on, and witness their lives from a careful distance. The slow pace of the walk and the interpretive skills of the experienced guide and tracker opens your eyes to a new and fascinating world. Learn how to follow rhino tracks, recognise rhino middens and scratching posts, and follow the signs of the bent trees and broken grass blades, searching for rhino in the company of wildlife professionals.

5

E-BIKING ADVENTURE

Cycle through the endangered sand forest on a battery power assisted e-bike that gives a boost via a throttle to make pedalling a little easier. There are four distinct routes available ranging from 5 km to 22 km (3 mi to 13 mi) to suit a range of fitness and skill levels. This adventure is guided by your ranger, and a specialist biking guide, so you can feel completely at ease. Minimum age 12 years.

Our impact legacy

From our greater conservation model down to the tiniest details, every decision that we make revolves around our core ethic of Care of Land, Wildlife, and People.

DISCOVER &BEYOND PHINDA PRIVATE GAME RESERVE

Impact Initiatives

Our land & wildlife

&Beyond was launched with the creation of Phinda Private Game Reserve in 1991. It was the first private game reserve in the province of KwaZulu-Natal, South Africa.

The original 13 076 hectares (32 311 acres) selected was identified as key conservation land. Wildlife had originally occurred here, but for almost a century this area had been dominated by pineapple, cattle, sisal and game farms, and was severely overgrazed and degraded. The founding vision was to rehabilitate this depleted tract of land, and reintroduce all the large mammal species that had originally lived in this region.

Care of Land, Wildlife, and People: the business model supporting this ambitious project was based on the principle that by harnessing international capital through low-impact, high-yield tourism, conservation can provide economic viability while also generating meaningful benefits for neighbouring rural communities.

Today, &Beyond Phinda is not only a flagship property boasting six globally recognised and award-winning luxury safari lodges, but it is also a proven impact case study that is widely regarded as one of the world's most far-sighted and successful blueprints for international ecotourism.

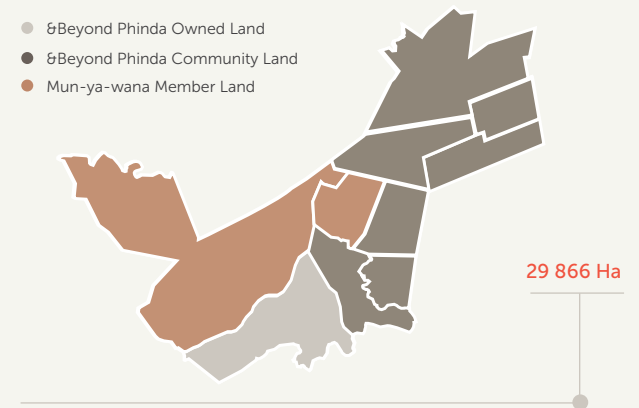

Phinda – meaning ‘the return’ in Zulu – has become the most compelling realisation of the &Beyond dream to create sustainable conservation through responsible tourism. ”

PHINDA PROPERTIES 1991

EXPANDED BIODIVERSITY

Through our relationships with the local communities and our close affiliation with the Mun-Ya-Wana Conservancy (a collaboration of wildlife land owners in the surrounding KwaZulu-Natal region), &Beyond Phinda has grown from the original 13 076 hectares (32 311 acres) to 29 866 hectares (73 800 acres) of protected wilderness.

MUN-YA-WANA PROPERTIES 2019

Pioneers in conservation

As wildlife was reintroduced to Phinda, it became the testing ground for many of the concepts, ideas and future working models of the company, including a number of conservation firsts.

LION

In 1992 and 1993, pioneering reintroduction methods were successfully used to mix Phinda's first 13 lion sourced from different prides. Now one of South Africa's most genetically diverse lion populations, they have supported the establishment of other reserve populations in Africa and even reversed a 15-year local extinction in Rwanda.

CHEETAH

The reintroduction of Namibian cheetah – 12 in two groups - was carefully planned to give them time to settle before lion were introduced - the first successful reintroduction of these two species into the same area. As one of Southern Africa's most important populations, they are in high demand to restock or develop new populations.

ELEPHANT

Phinda was the first private reserve to reintroduce elephant in 1991. The initial two intakes of elephant were 37 orphaned youngsters, with the first four adults arriving from Zimbabwe in 1993. 1994 marked the arrival of a group of 14 from Kruger National Park including a full breeding herd, and the birth of the first calf on Phinda.

RHINO

21 white rhino – an estimated 35 tons - were relocated in one day from a neighbouring farm in the largest translocation of its time. In 2004, Phinda was selected to start the WWF/ Ezemvelo KZN Wildlife Black Rhino Range Expansion Project and received 15 black rhino. The project's first calf was conceived and born on Phinda a year later.

Impact Initiatives

Our communities

Alongside the restoration of the land and reintroduction of the wildlife, the Phinda story is also about care of people – the generation of meaningful community benefits through our conservation endeavours.

In those early days, our engagement with the communities was an extended, trust-building process, as their association with conservation authorities in this politically turbulent period had been largely negative. We were also fortunate to have a staff member, Walter Zulu, who was of royal lineage, to guide us through the complexities of the traditional meeting protocols.

Our undertaking was to create job opportunities, provide skills training and support community-led development projects through the establishment of the Rural Investment Fund (1992) – now Africa Foundation, our non-profit conservation and community development partner.

Perhaps this part of the Phinda story is best explained by community member, Gladys Zikhali: "The rural communities bordering Phinda were ordinary people. When Phinda started, for the most part, they did not think that changing a pineapple farm and cattle ranch into a game reserve was a good idea. They believed that there was every chance that the dangerous animals would destroy their farm stock, and perhaps even worse. They never thought that one day they could have better jobs and the opportunity for tertiary education."

LAND-RETURN TO COMMUNITY

How far have things come since those early trust-building days?

In 2007 a pioneering land claim settlement took place between Phinda and the communities of Makhasa and Mnqubokazi: 9 085 hectares (22 460 acres) of wilderness land was returned to its ancestral owners. Both communities made the decision to continue with the use of the land for wildlife and conservation rather than farming. Isaac Tembe from Africa Foundation describes this chapter in the Phinda story as "standing at the gate of a new dawn".

Impact Initiatives

Foundational community-led projects

We believe that, in order for wildlife to thrive, local populations need to experience the benefits of participation in conservation.

MNQUOBOKAZI PRIMARY SCHOOL

Situated in the Mnqobokazi Community, Africa Foundation first assisted the school in 1993 / 1994 with two classrooms. Since then another two classrooms, electricity connection and a vegetable garden with water access and fencing has been provided.

MDUKU CLINIC

Situated in the Mduku Community, the early structure was funded by Africa Foundation in 1995 together with subsequent expansions. The clinic has gone from strength to strength. Today it is a 24-hour primary health care centre, serving over 5 000 community members a year.

MACEBO CRÈCHE

Located within the Mduku Tribal Authority area, the crèche was established in 1999 in collaboration with the Non-Profit Company, Operation Jumpstart. Africa Foundation has funded the build of two classrooms, including ceilings, electrification, tiling and furniture.
