SAFARI · LODGE

TANZANIA

A TRADITIONAL
SAFARI LODGE IN
AN OUTSTANDING
LOCATION

A MEETING PLACE FOR FRIENDS FOR OVER 50 YEARS

Steeped in history and famous for our homely warmth and generous hospitality, we have built a reputation as consistently being the choice of expert guides, professional wildlife photographers, filmmakers and biologists alike. The reason? It's simply the best place in the Serengeti eco system to watch and enjoy predators and prey, herds and hunters and is one of the finest locations to witness the extraordinary speed and spectacle of cheetah hunting their prey.

Each cottage has a private veranda looking out onto the ever-changing waters of Lake Ndutu.

PREDATOR SEASON

April - Mid December

As Ndutu changes into a stunning dry and dramatic landscape of muted greens and greys this is a great season to really enjoy the resident predators of Ndutu.

Ndutu is a favourite of experts for its high numbers of cats including lion, leopard, cheetah, african wild cat, serval and caracal. During predator season the behaviours of these cats are more visible due to the lack of vegetation. The variety of habitats allows plenty of places to explore and you often find yourself having private encounters with predators.

MIGRATION SEASON

Mid December - March

Over two million migratory species travel clockwise from Ngorongoro and the Southern Serengeti to the Northern Serengeti into Kenya and back. Ndutu is famed for its short grass plains growing particularly nutrient rich grass which sustains the migratory animals whilst they have their babies.

Traditionally the wildebeest and zebra calve on these plains with a peak around February which makes for a beautiful natural spectacle and some exciting predator hunting behaviours.

KOPE LION

We are proud to support the work of Kope Lion. Through this special partnership the lions of the Ndutu area are very well known to us and we follow their stories with great interest.

YOUR STAY

We pride ourselves on doing the simple things well. Wonderfully comfy beds, hot showers, delicious home cooked meals, friendly service and not forgetting our tempting homemade cookie jar!

Join us after a full day of wildlife viewing around our famous Ndotu campfire under the stars where you can relax, sharing stories with friends, as the moon rises above the towering acacia trees.
