

Ant's Nest & Ant's Hill Private Bush Homes

Children's Policy:

Ant's Nest and Ant's Hill are great family destinations situated in the Malaria free Waterberg. We welcome children of all ages.

Accommodation:

Special activities can also be laid on for children and teenagers who enjoy getting involved in the running of a game ranch. A sandpit, Toys and games are available to keep young ones occupied between Both our lodges are small and intimate catering to a maximum of 12 / 16 guests each. Both bush homes can be booked either exclusively or not. We are very flexible to accommodate families' unique needs, and parents do not have to worry about noise levels or disturbing other guests.

We have various family units available for families however all deluxe rooms are also large enough for children under 11 to share with their parents. We also have cots available for infants

Meals

We are able to offer smaller children separate meal times from the parents; kids are also welcome to come to dinner in their dressing gowns, however they are also welcome to enjoy dinners together as a family. We do have a special children's menu available for children with special dietary needs. There are high chairs available at both bush homes.

Child minding:

Child minding is available for kids 2 and younger.

Activities:

Child minding is available for babies/ toddlers between the age of 0 - 2 years old, this enable parents to enjoy their holiday and activities without worrying about their kids. We also have competent and friendly staff that will feed and bath babies. Please discuss your needs with the lodge managers on arrival in order for them to know what your expectations are.

Activities and the lawned gardens surrounding both bush homes create a safe haven for them to play in. Alternatively we can get them out and about while their parents enjoy siestas or massages. Something as simple as taking them off to the workshop to help fix a tyre, monitoring game in the sable breeding project etc. **Children of any age can join their parents on activities. Under 4 year old's will only be able to go out on a pony in the vicinity of the lodge and not on longer outrides.**

Both of our lodges have heated swimming pools. The pool at Ant's Nest is exceptionally large and as we tend to have most of the younger children at Ant's Nest we have designed a removable pool fence that can be put up or taken down, depending on parents' requirements, and there are big lawns within a secured area.

Other activities available for kids are bug walks/game walks, game drives, horse rides (we have horses for all riding abilities as well as some wonderful kids ponies, our herd consists of almost 70 horses and relatively competent kids can ride on their own, whilst very small and incompetent riders can be led by one of our guides), there are a number of other activities off the property that guests can also enjoy.

While the variety of activities keep all well entertained you will all learn a great deal about wildlife and gain inspiration to last you a lifetime.
