

## The Cliff

The Cliff – Lake Nakuru’s newest and smartest addition, is a 10 room luxury camp. While ‘luxury camp’ is the simplest description, in reality, The Cliff defies conventional labels, being a combination of safari lodge, tented camp and boutique hotel, constructed and furnished in a contemporary European style.

The Cliff brings you not only the comforts of home, but adds to it authentic style and décor. You can enjoy fine spirits and wines, read a book, or enjoy a large selection of coffee made by our onsite barista. Enjoy your meals in the restaurant as our Chef teases your palette with a variety of flavors in your starters, mains and desserts.

Continue your fitness regime by training at the gym (with a personal trainer), or by taking a dip in the pool, or relaxing and enjoying the wildlife. Begin your day with stretches and on occasional with yoga classes, or spend the day at the spa with treatments offered from Africology. The Cliff has the largest tent Spa and gym pavilion. We will also be offering spa treatments on the deck at a later time, making this a pampering-at-its-best experience.

The Cliff was designed to allow Nature in, so you can feel like you are outside – all areas are open, and not a single tree was felled during its construction – The Cliff was designed around the space that was already existing. Each of the accommodation suites provide you with a sweeping view that you can enjoy through the day – whether it is in the morning as you watch the sun rise from beyond the hills spreading its light across the expanse of the Lake, or during the day, as you watch the Lake morphing into a mystery of unusual shadows creating a sense of suspense, or in the evening, as you bathe with a glass of wine in your hand, unwinding and letting go.
