ABOUT ROBINS CAMP:

Robins Camp, now under private new management, offers an exciting revival of the iconic safari destination in Hwange National Park. Robins Camp is situated in the rugged northern Basalt area of the park, an area rich in natural water with seeps and springs dotting the area. It is the home to some of the last great buffalo herds in Africa, with herds of over 2000 still seen. Given the abundance of prey animals, it is no wonder that it also has the highest concentration of lion in the Park. Robins is also known for big populations of reedbuck, roan, sable and tsessebe as well as the usual herds of elephants and other species encountered in the Park. Particularly encouraging are the regular sightings of both Cheetah and African Wild Dog.

The scenery of Robins is varied with hills, kopjes (small bouldered hills) and vlei (grassed plains that flood seasonally) areas and has a lot to offer the wildlife enthusiast. We welcome children of all ages and guests can self-drive or choose a fully guided trip.

Although wildlife sighting are usually very good in the Robins Camp area of Hwange National Park, we have no control over the animal movements – some sightings require some patience and a little luck...

Robins Camp is situated in the north western section of Hwange National Park, a quick 20 minute flight or a two hour drive from Victoria Falls.

CAMP SITES:

An amazing destination for the weary traveller with brand new ablution facilities with hot and cold water and high pressure showers. The campsite boundaries are secured by electric fencing. Campers also enjoy full access to all the facilities that Robins Camp has to offer. Inclusive of a swimming pool, bar, restaurant and a scenic viewing point to relax and take in the flora and fauna. Most campsites have their own dedicated 220 v power supply. Please also note that fire wood is available for purchase from the National Parks Office at Robins Camp. Robins Camp does not have a convenience store.
