

Toyota Landcruiser 300

1 - 3 GUESTS

The Landcruiser 300 is ideally suited to African conditions. The turbo-charged engine, large fuel tanks and luxurious interior mean that the Land Cruiser 300 has the power, range and level of comfort required to make any road transfer smoother and more enjoyable.

The Landcruiser 300 is equally adept at handling off-road terrain. Whether on or off the tar, it delivers a premium experience thanks to the leather seats, substantial leg room, and air conditioning. Features such as anti-lock brakes, active traction control and vehicle stability control guarantee a safe and comfortable transfer to and from the lodge.

Toyota Quantum

4 - 6 GUESTS

Across Africa, the Toyota Quantum is an iconic sight. It provides comfort, convenience, practicality and safety. This latest model of the Quantum provides more legroom than previous versions, plus a larger cabin with increased head room.

The Quantum has extensive safety features including anti-lock brakes, vehicle stability control and hill assist.

The Quantum can easily tow a trailer, making it more than capable of safely transporting all your luggage.

Toyota Fortuner 2.4 GD-6

1 - 3 GUESTS

The Toyota Fortuner is one of South Africa's best-loved SUVs and is a common sight on our country's roads. The Toyota Fortuner can best be described as tough, yet sophisticated. The exterior is defined by modern lines and stylish fittings that give the vehicle an elegant and assertive look.

The interior is both practical and stylish, with advanced safety features and technology, including a multimedia infotainment system with JBL speakers.

Even whilst driving over challenging African terrain, the Toyota Fortuner promises guests a comfortable journey, thanks to its luxury seating and driver-assist technology (including Downhill-Assist and Hill-Assist control).
