Travel Namibia and beyond

Travelling to Namibia requires careful consideration and attention to detail as there are a multitude of different transport methods to get to and around the country. Contact your preferred Travel Specialist to assist with your travel plans.

GETTING THERE

Fly directly from South Africa (Johannesburg and Cape Town) to Hosea Kutako International Airport in Windhoek.

From Hosea Kutako International Airport, take a 30-minute drive to Eros Airport in Windhoek for all scheduled flights within Namibia including to Sossusvlei Desert Lodge. Light aircraft flights link Windhoek to all major tourism areas such as Swakopmund, The Skeleton Coast, Damaraland, Etosha and the Namib Desert; and are operated on a scheduled seat-on-plane or private basis.

There are scheduled daily charter flights (1 hour and 15 minutes) from Windhoek's domestic Eros Airport to the Beyond Sossusvlei Desert Lodge private airstrip followed by a short 10-minute road transfer to the lodge.

Namibia is an ideal self-drive destination (on good quality tar and gravel roads) although distances between areas may be considerable. All Beyond guests begin their self-drive journey in Windhoek, and are given a comprehensive briefing by knowledgeable staff regarding road conditions, suggested sightseeing along the route and other relevant information.

For self-drive guests, it is advisable to use a 4x4 vehicle during the rainy season (from November to May). Beyond Sossusvlei Desert Lodge is a 400 km (248 mi) drive from Windhoek and a 380 km (236 mi) drive from Swakopmund on good quality gravel roads.

- Between 2000 and 2019, ♻️Beyond Namibia contributed over 1.2 million NAD per year towards the total revenue of the NamibRand Nature Reserve
- In late 2019, ♻️Beyond Namibia took an independent route in order to play a more focused and active management role of the land under our custodianship, and the ♻️Beyond Sossusvlei Private Desert Reserve was born: 12 715 hectares (31 419 acres) of protected wildlife and wilderness

Sustainable by design

Responsible travel and impactful experiences go hand-in-hand at &Beyond Sossusvlei Desert Lodge where elegant, mindful design meets innate, sustainable habits in support of uncompromised luxury.

SUSTAINABLE LUXURY

Each guest Suite boasts:

- An ingenious roof design providing optimal shade plus maximum space for unobtrusive solar panels
- A fully independent solar hot water system
- A highly effective grey water recycling system per Suite (powered by the solar panels on the roof)
- A rainwater harvesting tank (also powered by the solar panels on the roof)
- A pool cover to be used as an evaporation control measure (when guest Suites are not in use)

POWERED FOR GOOD

- All Suites are beautifully cool, thanks to the air conditioning which is powered by solar energy
- Each Suite boasts an inviting private plunge pool. The water recycling system throughout the lodge generates more than 100 000 litres of grey water a month, which more than offsets the evaporation from the pool surfaces
- Each Suite's private outdoor rain shower, offering 180° views, is sustainably supported by the lodge's water recycling systems
- Room-freezer treats of ice-creams, desert cordials, and craft beer – another solar-powered benefit
- Privacy and extra shade, courtesy of the indigenous desert gardens being cultivated around the Suites, are irrigated by the harvested rain water and recycled grey water systems

NATURALLY IMPACTFUL

- By bottling water on site and using recycled glass bottles, the lodge saves a significant amount of CO² per month, absorbing the carbon footprint of the plastic water delivery truck
- All cleaning products used at the lodge are environmentally friendly and 100% biodegradable
- All energy used at the lodge is stringently tracked and reported on a monthly and quarterly basis - this includes the use of wood, petrol, diesel, electricity, gas and paraffin
- In an effort to constantly conserve water, all guest Suites are designed without baths and all systems are regularly checked for leaks and water usage strictly monitored
- The lodge undergoes an annual sustainability audit to determine its environmental impact by monitoring and actively reporting on its carbon footprint
