The Okavango Delta

Jewel of the Kalahari

A maze of sparkling lagoons, meandering channels and overgrown islands teeming with wildlife, Botswana's Okavango Delta lies like a sparkling jewel at the heart of the Kalahari Desert.

Why visit the Okavango Delta?

Officially declared UNESCO's 1 000th World Heritage Site and one of the Seven Natural Wonders of Africa, the Okavango Delta is undeniably Botswana's crown jewel.

1

AN UNEXPECTED WONDER

The broad Okavango River, which emanates from the Angolan highlands, sinks into the dry sands of the Kalahari Desert, creating a lush and waterlogged oasis. Known as the river that never finds the sea, the result of this is the most unexpected wonder – water present in a desert.

2

A WATERY WILDERNESS

A variety of incredible water experiences is on offer in the Delta. Glide through a maze of clear channels and opaque lagoons on a traditionally made mokoro (dugout canoe), silently passing by unsuspecting wildlife, or cover a greater distance on a motorised boat. Sparkling channels teem with fish, while birds and frogs inhabit the reeded banks.

3

ICONIC WILDLIFE SIGHTINGS

The Okavango Delta is home to a large number of species, including some that are specially adapted to the semi-aquatic lifestyle, like the elegant red lechwe and shy sitatunga antelope. Hippo are found in lagoons, while cheetah, leopard and African wild dog share the floodplains with elephant and buffalo.

4

AN ABUNDANCE OF SPACE

Vast stretches of untouched, unfenced wilderness and unrivalled game viewing are what most guests love about the Okavango Delta. Leave the crowds behind, and enjoy a full day safari exploring this pristine wetland system brimming with abundant wildlife without seeing another vehicle.

Sustainability initiatives

In collaboration with Africa Foundation, our long-standing community and conservation development partner.

CARE OF The Land

- 155 856 plastic water bottles eliminated per year in Botswana as a result of on-site lodge bottling plants
- 2 670 tons of concrete removed from the Okavango Delta
- Hybrid solar power plant systems in operation at our Botswana lodges have the capacity to supply up to 80% of the lodges' energy requirements.
- Our Sandibe solar power plant (installed in 2014) was the first of its kind in Botswana, and the second on the African continent
- Nxabega and Xaranna lodges utilise the cutting edge Tesla Powerpack system
- All our Botswana lodges have sophisticated, environment-friendly above-ground wastewater treatment systems
- Progressive reduction of our direct carbon footprint through a system of Group goals, measured by annual lodge audits

CARE OF The Wildlife

- Long-term support of the WildCRU Trans-Kalahari Predator Programme, based out of the University of Oxford, which aims to identify and protect wildlife corridors in Botswana
- Support of the Botswana Predator Conservation Trust with their African Wild Dog Dispersal Study – a project that is fundamental to the management and conservation of this endangered species
- Rhinos Without Borders – a collaboration between ♻️Beyond and Great Plains Conservation – has translocated 93 rhino from South Africa to Botswana, with the new source population now numbering well over the target of 100. The significant number of calves born is testimony to the success of this conservation initiative.

CARE OF The People

- 94% of our staff complement are local Botswana citizens; an average of over 100 training interventions annually
- 89% of our Botswana lodge operational expenses currently support local businesses
- The phased development of the Sexaxa Primary School, 2012 – 2020, a long-term commitment by Africa Foundation and ♻️Beyond to a community-identified project
- Africa Foundation's CLEF (Community Leaders Education Fund) tertiary bursary programme was introduced in 2019, with 6 bursaries granted to 5 rural students to date.
- Two new boreholes installed, providing a stable source of clean water to the isolated communities of Gogomoga and Tsutsubega
- Our COVID-19 impact and response: total of BWP 393,073 raised to support water access, food relief and masks for school children

A group of five people are walking through a field of tall, golden-brown grass. The sun is low on the horizon, creating a warm, golden glow. The sky is a mix of blue and orange, with some clouds. In the background, there are several trees, including a prominent palm tree on the right. The overall scene is a beautiful, natural landscape.

From these heights, even those far-flung and inaccessible corners of the Delta can be seen, fully showcasing the incredible diversity of landscapes and wildlife.

Take a closer look at the planets and constellations with your guide while out on a drive, or sit out on your private deck at night and see if you are able to spot a lucky shooting star.

8

BIRDING

Botswana is a top African birding destination, with the waters in the Okavango offering great year-round diversity. 1

MOKORO ADVENTURES

Pastel-coloured lilies float upon verdant lily pads, butterflies captivate with their iridescent wings and tiny painted frogs cling to the reeds as you take to the tranquil waterways in a traditional mokoro (dugout canoe). Keep a careful look out for the variety of fish darting through the crystal-clear water below you.

2

CATCH-AND-RELEASE FISHING

The best catch-and-release fishing excursions take place from ♾️Beyond Nxabega Okavango Tented Camp due to its proximity to the Panhandle region. Here, the Okavango River feeds into the labyrinth of channels and lagoons that makes up the heart of the Delta wetland. Try your hand at catching a variety of fish, including the predatory tiger fish.

3

MOTORISED BOAT CRUISES

Explore the Okavango Delta's intricate network of winding channels and opaque lagoons on board a sleek, motorised boat that covers great distances, showcasing magnificent views of the watery landscape.
