

## Welcome to Hermanus

### LOCALE

A spectacular seafront setting, warm welcome, luxurious rooms and delicious dining set the scene for a memorable stay. Schulphoek House overlooks the bay from which it receives its name; an idyllic cove where whales often visit. A well known eco-conscious refuge, this protected cove and its shoreline is also home to many birds, small mammals and marine life which can be viewed on the seashore paths nearby.

### SMALL HOTEL

Offering understated luxury and Cape refinement. Four kilometers from Hermanus town centre & gateway to the Hemel & Aarde wine valley.

**FIFTEEN** en-suite bedrooms, each uniquely furnished:

**9 x sea-facing** - spacious, modern, well appointed

- 4 x first floor twin/king
- 1 x first floor triple (sleeps 3). Master king en-suite plus single en-suite
- 4 x ground floor twin/king

**6 x garden** - spacious, comfortable

## **IN-HOUSE RESTAURANT AND BAR**

Breakfast: seasonal menu

Lunch: seasonal menu

Dinner: seasonal menu. Book a table: email: [stay@schulphoek.co.za](mailto:stay@schulphoek.co.za)

Schulphoek House takes great pride in its cuisine and wine offering. The wine collection is curated from the Hemel-en-Aarde region. Our seasonal menus are limited to fresh and locally sourced ingredients. Venison comes from the nearby Karoo region and fresh fish from local fishermen. Fruit and vegetables from local farmers. Herbs and baby vegetables picked from the garden.

## **GREEN HOTEL**

The house is holistically designed to be carbon neutral and bio-dynamic.

Efforts at sustainability began in 1999 with water harvesting, solar heating and a salt water pool and continued in the 2017 build project, which focused solely on sustainable and eco-conscious build practices. These include solar power to run the entire property, a hydronic air conditioning system, a thermal water heating system, as well as increased water harvesting storage.

Awarded a prestigious grant by the Austrian government. Stellenbosch university monitors the results of the house's energy consumption for further analysis into sustainability in the Cape.

### **Address -**

181 Piet Retief Crescent, SANDBAAL Hermanus, Western Cape, South Africa  
4 km from the town centre.
