*These activities are with selected partners. Payment can be made on departure or added to invoice on confirmation.*

Spa treatments	On request
Walking safari	On request
Conservation activities	On request
Private vehicle & activities	Subject to availability

## Seasons

*Winter has lower rainfall with cool nights with mild pleasant days. The animals tend to congregate around waterholes and the drier grass enables for good viewings of sightings.*

*Summer is the time of plenty with dramatic thunderstorms and baby animals. Migrant birds visit and the vegetation is lush and green.*

There really is a reason for every season!

### AVERAGE TEMPERATURE °C
