WHY VISIT?

Timbavati

The Timbavati Private Game Reserve borders the Kruger National Park to the north and east. The name Timbavati was derived from a Shangaan expression meaning ‘the place where something sacred came down to earth from the heavens’.

The Timbavati has a vast array of wildlife, which includes the Big Five (lion, leopard, elephant, buffalo and rhino) thriving amongst giraffe, zebra, warthogs, hyena and many antelope species. This sums up the magical spirit of the Timbavati, which has a tangible sense of wilderness.

The reserve is also a protective habitat for sustainable populations of many endangered species such as black and white rhinoceros, pangolins, and many others.
