# The Serengeti

A UNESCO World Heritage Site and home to the famed Great Migration, an annual movement of wildebeest and other herbivores that thunder across the Greater Serengeti-Mara ecosystems, one of the greatest wildlife spectacles on earth.

Accommodation overview

# Our camps in the Serengeti

The three camps have been specifically set up and designed to capture the essence of the Serengeti in three extremely different areas of the park, offering not only a varied experience, but also different accommodation options.

### &BEYOND SERENGETI UNDER CANVAS

The &Beyond Serengeti Under Canvas camps attempt to anticipate the movements of the Great Migration, bringing guests as close as possible to the wildebeest action, as well as exploring magnificent resident game. These camps are mobile and move five times a year. When staying here you will connect to the African bush, sitting round the camp fire at night and showering under the stars.

### &BEYOND GRUMETI SERENGETI TENTED CAMP

Set in the remote western reaches of the park, on a by-water of the Grumeti River. In this area, there are few other lodges, and one rarely sees other vehicles. This secluded part of the Serengeti has large resident lion prides and an annual topi migration, making game viewing experiences exceptional with the feeling of exclusivity in this remote part of the Serengeti.

### &BEYOND KLEIN'S CAMP

Deep in a remote corner of the game-rich Serengeti National Park, a 10 000 hectare (24 700 acre) wildlife concession leased from Maasai landlords offers guests the ultimate, exclusive, Tanzanian safari. Night drives and walking safaris in the private concession allow guests to explore the nocturnal world of predators or to get an intimate glimpse into the details of the African bush.

## IMPACT INITIATIVES

We collaborate closely with the **Africa Foundation** on community development programmes: Over USD 420 000 invested since 2006 into education and healthcare in neighbouring communities.

### Community Leaders Education

Fund: 42 tertiary level students supported through bursaries.

### Conservation lessons:

Creating awareness through education where over 130 children and adults partake annually.

### We are creating conservation awareness

through education where over 203 children and adults partake annually

**79% of our team** are employed from local communities.

**79% of goods** are procured locally in Tanzania.

We purify our own still and sparkling water on site, at our **water purification plant**, using recycled **glass bottles**. Through this we have completely eliminated the use of plastic water bottles in the lodge.

We are a part of the **Lionscape Coalition**, which supports lion conservation efforts through the Lion Recovery Fund.

**Recycling:** All plastic, glass, and materials such as old engine oil are sent away for re-use and recycling.

### Energy measurement & management:

Energy use is tracked and reported on a monthly basis. This includes the use of wood, petrol, diesel, electricity, gas, paraffin and charcoal.

We take steps to **conserve water**, including monitoring usage closely
