

# A Gem In the Heart of Serengeti

The Ole Serai Luxury Camp - Seronera is located 14 km from Seronera HQ / Airstrip, right in the heart of Central Serengeti. It is situated in a spectacular and secluded location perched atop the slopes of Makoma Hills, overlooking the magnificent Makoma Plains and the Thatch Kopjes.

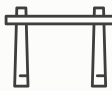

## SERENGETI NATIONAL PARK

A UNESCO World Heritage Site, the Serengeti National Park pulsates with life: with over 2 million ungulates, 4000 majestic lions, 1000 elusive leopards, 550 sleek cheetahs, and a kaleidoscope of some 500 avian species within its vast expanse spanning close to 15,000 square kilometers. Embark on an adventure with us and immerse yourself in the boundless Serengeti savannas, peppered with verdant trees and rocky outcrops where regal lions preside over their domain. Witness the breathtaking spectacle of the Great Migration, or embark on a quest to spot a stealthy leopard amidst the riverine forests. Alternatively, ascend to the heavens for a bird's-eye vista and drift over the plains at sunrise aboard a majestic hot air balloon.

## HIGHLIGHTS

- Elevated to provide the best views of Makoma Hills, a prime hunting location for lions and leopards
- Famous for its large number of resident cheetahs
- Unobstructed view of Makoma plains
- Small camp suitable for small groups & families
