Serengeti  
Bushtops**

IN THE HEART OF NATURE.  
VISIT FOR A WHILE.  
REMEMBER US FOR EVER.

THE SERENGETI NATIONAL PARK. A PLACE OF STUNNING BEAUTY, AMAZING WILDLIFE AND HOME TO ONE OF THE GREATEST NATURAL SPECTACLES IN THE WORLD – THE SERENGETI MIGRATION.

Serengeti Bushtops is located in the north west of the Serengeti National Park, just 25 km from the Mara River and directly on the path of the main migration route.

Access is easy: by road through Arusha Lake Manyara, Ngorongoro Crater Ndutu in southern Serengeti; or by air via Arusha and landing at the nearby Kogatende airstrip. Connecting flights to the Serengeti National Park are also available from Zanzibar, Dar es Salaam, Migori and Nairobi.

The phrase 'adventure of a lifetime' really does apply here. With such a large concentration of wildlife all year round, the Serengeti adventure never stops.

Ride in the tracks of the Big Five in one of our specially converted 4x4s, or marvel at the thousands of wildebeest on their annual migration, which takes place June – November each year. Perhaps you want to watch hippos and crocodiles at the Mara River, take a walking safari or venture out on an off-road game drive. If you like the idea of a bush picnic, you can do that too.

Whatever you choose (and all our safaris are also offered on a private or group basis), our excellent guides ensure you have an experience to remember for the rest of your life.
