

# HORSE SAFARI ON LEWA WILDLIFE CONSERVANCY

Ride amongst the wildlife and gain a whole new perspective on safari. The horses graze out on the plains during the day and therefore the surrounding wildlife is very used to seeing them, which allows riders to get much closer in a peaceful environment.

This activity is suitable for all abilities, we have horses that are very used to taking out first time riders and beginners for a gentle walk amongst the wildlife. For more experienced riders we can go further into the valleys and full morning or full day rides can be arranged.

Riding occurs in big game country and wild animals can be unpredictable, although our horses are very well trained no behaviour or situation can be guaranteed. There is a strict weight limit of 90kgs / 200 lbs / 14 stone and riders must be able-bodied to mount and dismount.
