

Overlooking the wilderness of the Welgevonden Game Reserve, Laluka creates experiences through stories. It will be your home away from home, it will immerse you in a unique & in-depth experience of the African bush. Laluka is more than a safari, it is a meaningful travel through nature, sustainability, and conservation.

6 Beautifully designed rooms complimenting the complex, raw beauty of the bushveld are our understated but undeniably luxurious suites. Complete with private patios, heated plunge pools, air-conditioning, outdoor showers and unique bushveld vistas; Laluka's rooms make for an ideal space to relax and rejuvenate.

Laluka overlooks one of the reserve's best watering holes, but if you want to get even closer we have an eye-level hide that is mere centimetres from the water's edge. Every photographer's dream - spend hours enjoying a personal encounter with each animal as it wanders down to quench its thirst.

Your guide can make or break the safari experience for you, that's why we have taken care in sourcing extremely knowledgeable, experienced local guides. We offer excellent driven safaris, but we always encourage guests to experience the intimate encounter that a walking safari offers. Whether you're after that perfect sunset, or you're looking to camp out at a watering hole and get an action shot, you'll get every pic you're hoping for at Laluka. Photography lessons, specially kitted trucks and even a printing studio back at the lodge - as keen photographers ourselves we made sure that Laluka would be fully equipped for every level of photographer.

After a long day of bush walks, game drives and hours in the hide - you're going to need to unwind. Enjoy a massage at our spa or spend the afternoon lounging on our pool deck, taking in the views - and a couple of cocktails never hurt!
