EDEN INVESTING EXPERIENCE

WITH KEVIN RODRIGUES

OVERVIEW

Over 15 years of investing experience covering angel, venture capital, impact and private equity across Africa shared with you.

Kevin Rodrigues is an Investment Director at Lightrock working to identify, select and close impact and venture capital investments across Sub-Saharan Africa. Focusing on impact investing in key emerging economies, Lightrock is a fully owned subsidiary of the The LGT Group Foundation ('LGT'), a multi-generational company, owned by the Princely family of Liechtenstein.

Kevin is a Nairobi native, and an active angel investor with an interest in African companies that have one or all three of the following attributes: (i) scalable; (ii) disruptive – ability to bring innovation and efficiency to an industry long considered "traditional"; and, (iii) impact – bringing a service not offered before or improving access for ignored populations.

"My goal is to work with entrepreneurs – young and old – who are looking to develop businesses that will drive transformation in Africa. From innovators still in college to experienced professionals with corporate experience looking to venture into the startup world, locals, expatriates and diaspora returnees – I seek out leaders that can create exciting businesses. Combining this with a universe of investors both local and global provides an opportunity to catalyse capital to where its most needed – in Africa – to build companies that will transform the continent and leave a positive impact".

The investing experience is intended to appeal to both leisure and business travelers interested in learning more about investment opportunities that exist on the African continent. As a passionate investor, Kevin offers his experience and knowledge to visitors who are either curious and seek intellectual stimulation or are looking for ways to participate in the African growth story either individually as angel investors or commercially as alternative (venture capital or private equity) asset investors.

OPTIONS FOR THIS EXPERIENCE:

- Informal chat – in person or online (depending on travel schedule) on the microeconomic environment and opportunities in Sub-Saharan Africa
- Introductions to Nairobi investor community – private equity/VC investors, debt providers, brokerages, accelerators and angel communities
- Scheduled visits to select investors and investment opportunities on an ad hoc basis

EDEN ARTISAN & MANUFACTURING EXPERIENCE

WITH GLADYS MACHARIA

OVERVIEW

Over 12 years of artisan and manufacturing relationships built across Kenya shared with you.

Gladys grew up in Northern Kenya, It was there she encountered the concept of craft for the first time, and clearly honed a skill for noticing beauty in the little things. Her first jewelry project? Drilling holes in maize and beans to string a necklace. Later she graduated to forming clay beads. Fast forward a few years, and she was taking a beading course on a back street in Florence, Italy, while studying fashion design at university. Italy held great fascination for Gladys as her late grand father was Italian.

After graduation, Macharia worked for internationally recognized designer Ermanno Scervino before returning to school to study fine jewelry and gemology. "This was my eye opener," she recalls, "when I finally felt I had found that missing equation in my life." The budding jeweler returned home to begin her own bespoke jewelry line, Loyangalani, made 100% in Kenya with locally sourced materials. A stint consulting with Ethical Fashion (supported by ITC, a branch of the UN) followed, her first proper introduction to working closely with artisan groups across the continent.

With over \$500 billion in annual revenue today, the creative manufacturing and handmade (CMH) sector is projected to grow by 20% per year, reaching \$1 trillion by 2024. Dominated by women, youth and rural populations, CMH is already the second-largest employer globally (after agriculture), but the sector has been chronically under-served by investment, digitalisation, access to business finance and markets. Despite enormous scale and potential, the sector continues to be undervalued as a vehicle for economic, social and environmental impact..

They have a nice outdoor seating setup with socially distanced tables.

CULTIVA, POFU ROAD, LANGATA

Fusing Kenyan cuisine with farm-to-table practices, this local gem has an ever-changing menu with healthy, delicious options that are perfect for a picnic or lavish lunch. The restaurant has a great buzz in the evenings with cocktails flowing and music playing.

EMBARK RESTAURANT, NANDI ROAD, KAREN

Only a dozen diners at a time can enjoy the palette-twisting creations of this restaurant, which uses homegrown ingredients in unusual ways: maize staple ugali, for example, is reimaged as a petal-strewn dessert. If you're searching for fine-dining in Nairobi, this pop-up style restaurant is where to go. You'll pull up to an unassuming parking lot and as you walk down a poorly lit path a makeshift cottage will appear that houses Embark. A meat lovers heaven! Meats are roasted on traditional maasai swords over a huge charcoal pit that dominates the restaurant's entrance. The rough-hewn beams combine the rustic feel of a rural setting with that of a medieval banqueting hall. An army of carvers move table to table, swords laden carving juicy cuts onto sizzling cast-iron plates. . The full meal including the soup course is at a set price. A vegetarian menu is also offered.

OPEN HOUSE, KAREN CROSSROADS, KAREN

The Mughals were known for their style and splendor - and their food habits were no different. Rich creamy sauces, aromatic spices and traditional recipes full of distinctive flavours in a myriad of styles. Open House caters for the mild eaters as well as the experienced chilly fans. This formal Indian restaurant set in the heart of Karen town never disappoints.

RESTAURANTS IN THE REST OF NAIROBI

Hob House is a charming period-style house that has been converted into a guesthouse. The star here is the Lebanese restaurant on the ground floor, which serves up family-style Lebanese specialties from manoushe and mezzeh to salads, fateh, skewers and more.
