## CORAVIN SELECTION

Coravin Wine Preservation System is designed to pour wine without removing the cork, so wine always tastes like it has just been opened. The non-coring Coravin Needle gently passes through corks without displacing cork material. Once the Needle is removed, the cork simply expands back to its normal shape. As wine is extracted through the Needle, it is replaced with pure Argon gas, ensuring oxygen never touches the remaining wine, keeping it as fresh as the day it was bottled.

# Sip And Support

Wild Spirit Wines of Africa celebrates the wine farms and spirit distilleries that champion local ingenuity, biodynamic farming, and environmental sustainability.

In collaboration with the World Wildlife Fund For Nature (WWF), Hilton celebrates the awe-inspiring biodiversity, and magnificent winelands of South Africa with a champion cellar curated from 50 accredited producers, whose commitment to local sourcing, protecting wildlife and water stewardship means that with every sip you support an agenda of purpose that will make a difference.

# Rosé Wine

Do you know how Rosé wine is made?  
From the Greeks to the Romans, and even the Egyptians, rosé wine was considered a delicacy. It's believed that the first rosé wine was made from a blend of red and white grapes, which were then fermented together to create a unique pink hue.
