

SIMBAVATI WATERSIDE

KLASERIE PRIVATE NATURE RESERVE
KRUGER NATIONAL PARK
SOUTH AFRICA

Water is *Life*

Flanking a large dam in the southern Klaserie Private Nature Reserve (just 30 minutes drive from Hoedspruit Eastgate Airport), Simbavati Waterside was conceptualised, designed and built to be a natural extension of the pure utopian Klaserie wilderness from which it draws its inspiration.

Water is the source of life. Throughout the year countless animal species – including predators, elephants, hippo and buffalo - are drawn to the dam to cool off and quench thirst (sometimes in herds numbering hundreds). Here the game viewing never stops, and guests become part of their own private Africa for an utterly immersive and sensory safari experience.

Simbavati Waterside is the perfect environment for every type of traveller. The carefully considered lodge structure affords absolute privacy for couples, as well as sociable spaces for families and friends. Sophisticated décor, sublime cuisine in imaginative settings, and intuitive hospitality enhance an already-perfect safari.

Dining:
Imaginative settings, around the water, in the bush, on the deck or within the lodge

WHY VISIT?

Klaserie

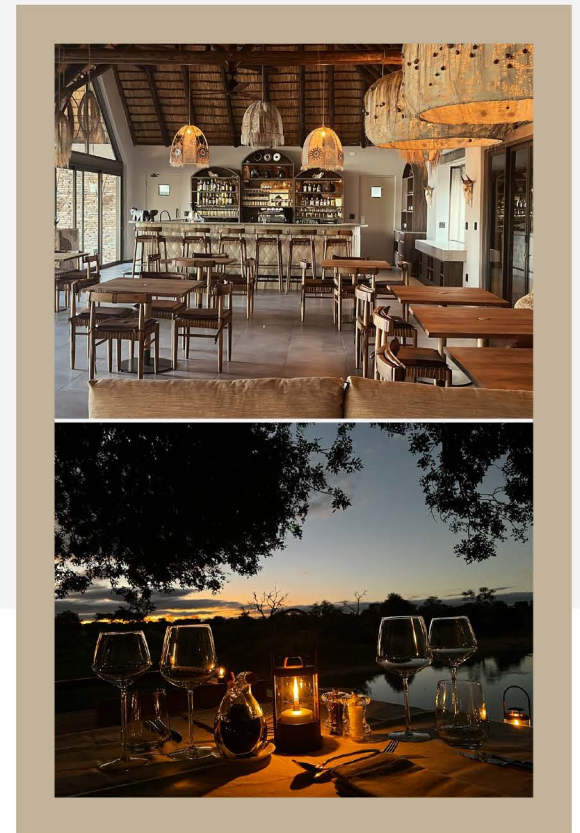

The Klaserie Game Reserve was established in 1972 as part of the greater Kruger National Park. It is one of the largest private reserves in South Africa, being 60,000 hectares (or 148,000 acres). This vast tract of preserved land has some beautiful trees and riverine vegetation near the magnificent Klaserie River. It has an open fenceless border to the Kruger National Park in the north, and the Timbavati to the south-east.

The Klaserie also protects sustainable populations of many endangered species such as wild dog, saddle-billed storks and southern ground hornbills. This is a raw wilderness experience. With limited lodges and vehicles, this is the original non-commercialised safari experience.
