FACT SHEET

Nomad Flycamping

Katavi National Park and Nyerere National Park

LOCATION

We offer flycamping as an extra activity at an additional cost from both Chada, Katavi and Sand Rivers/Kiba Point in Nyerere National Park. We have scouted out a number of different sites for flycamps and so the setting varies. In Nyerere (formerly Selous Game Reserve), we often favour the open sand-banks or sand rivers where the night sky is not obscured. In Katavi, we have favourite spots on the edge of the open plains.

THE EXPERIENCE

Usually guests will do one or two nights flycamping in the middle of their stay. The point of flycamping is to experience the African wilderness with as much freedom as possible and only the finest line drawn between us and wild Africa. We walk to the camp (a gentle 2-4 hours) rather than drive, keep equipment to a minimum without compromising comfort, and choose a space where we can be surrounded by natural flora and fauna.

The simplicity of sitting around a campfire, the feeling of washing the day's dust off under a bucket shower beneath the open sky, and the exhilaration of lying in bed looking through your netting tent to the endless starry sky is something that can't be adequately expressed – you just have to experience it for yourself.

ACCOMMODATION

Flycamps typically accommodate no more than 6 people. Our tents are made from coarse netting which is insect proof when zipped closed, and each accommodates two thick bedrolls made up with crisp linen, blankets and down pillows. We also provide a dome tent for each fly tent which can be used for changing or in the case of poor weather. Each fly tent has a table and washstand nearby, a torch, water jug and mosquito repellent. Bathroom facilities consist of a shared short drop toilet and a safari-style bucket shower which are screened by canvas cubicles and lit at night. They are a short distance away from the sleeping tents.

MEALS

Typically you'll enjoy a sundowner by the fire followed by a three course meal prepared by the camp team and served at the table under the stars. You'll usually have a camp breakfast before departing back to main camp the following morning.

SAFETY

Flycamping is for adventurous people however we do take safety seriously. In addition to the camp crew, you will be accompanied by a trained guide and scout. The camp is lit with kerosene lamps and guarded through the night.

CHILD POLICY

Children of 12 and over may flycamp in Nyerere, and children of 16 and over can flycamp in Katavi.
