- Game driving
- Walking safaris

HANDMADE IN TANZANIA

Our Wayo Serengeti Green Camp features our newly designed tents sewn by local teams located on the boundary of Arusha National Park. The offering further extends our iconic Wayo mesh-sided tents to be 180 degrees creating a picture-window frontage and taking the inside-outside experience to another level.

Encased in a beautiful stretch canvas overhead, tents sensitively blend into the landscape whilst also providing shade and privacy. There are ensuite bathrooms with low-flush toilets and bucket showers.

Interiors have been carefully sourced with help of anthropologists and fresh-to-the-field designers; celebrating cultural groups and encouraging the development of local craftsmanship whilst bringing an innovative interior flair and high-level of comfort.

The guest experience is focussed around immersing guests in both the feeling of being in the wilds of the parks whilst also appreciating the local craftsmanship. Bed panels made from banana leaves in Mto Wa Mbu - local to our activity centre. Maasai belted cushions, Chaga cup chandeliers, and countless other celebrations. Each sensitively placed to incite interest and provide exceptional comfort.

LOCATIONS

Our locations are chosen to be set away from the busy tourism hotspots and the large numbers of vehicles which are seen at The Mara River & Ndutu Woodlands. Our camp is 1.5hrs game drive to these areas so we can enjoy these spaces during the day and then escape to more remote corners of the Serengeti in the evenings.

GAME PACKAGE is available from this camp in our new lighter Suzuki Open Game Drive Vehicles and in the traditional open land cruisers.

WALKING SAFARIS are also available on our Game Packages or when on an FB stay with one of our Wayo guides.

CAMP EXPERIENCES

GAME DRIVES

Guiding is a speciality of our's and our Wayo Africa guides are well known in the industry as being some of the best. Game drives are available in camp on game package and also by booking a private guide and vehicle.

Our guides are keen to understand our guests' experiences and what they have seen before their visit to Serengeti Green Camp. They prioritise wildlife experiences away from other vehicles and will manage sightings very carefully with this in mind.

Guides have an extensive knowledge of the wildlife in the Serengeti through our ongoing in-house guide training programme.

WALKING SAFARIS - WALKING IN THE WILD

Wayo Serengeti Green Camp primarily offers a taster of walking safaris. Wayo can run short walks from this camp either in the morning or the afternoon. Longer full-day walks are available with a private vehicle and Wayo guide.

Walking provides guests with a different dimension on a safari. Guides unpick the careful balance of the Serengeti eco-system from the length of the grasses to the dung beetle and caterpillar. Walks are conducted by our most experienced safari guides all of whom have had rifle training. They are accompanied by a Serengeti Park Ranger. The reassurance of this safety allows guests to settle into the experience. Longer treks can become almost interpreted as a meditative journey.
