

# Young Explorers

We can all recall the freedom of our youth when we were outside all day, making forts, catching tadpoles and climbing trees. We were all explorers of some kind, even if just in our suburban garden.

We explored, we discovered, we might have even gotten lost, but we always returned the wiser and more enlightened. Safaris with kids are much the same – a time to stimulate all the senses. Safaris open up a whole new world to us all, but for kids that world is even more enchanting.

Exciting new animals are a huge part of a safari experience, but delving deeper and more personal into what lies in heart of the land and its people while learning and experiencing gives great satisfaction and interaction to kids (and parents). Stepping away from everyday life to pole a mokoro through Okavango channels, or treasure hunting and practicing your newly learnt traditional bush survival skills is an experience we would all cherish. For kids, it is magical.

The freedom and purity of Africa is the ideal way to escape the “everyday” and bond with the land and with each other.

Great Plains Young Explorers program is designed to enhance both a child and a family’s overall safari, weaving themes of conservation and culture into each fun activity with the intention of giving children tangible examples and moments to bring back to their peer group. The future of conservation is, after all, in the hands of these young ambassadors.

We at Great Plains Conservation understand how families enjoy travelling. Our safaris are renowned for being 100% flexible to your family’s needs from flexible meal times to activities planned to suit you. At the end of your stay you will progress from Young Explorers to Conservation Ambassadors.
