Overview

Ekorian's Mugie Camp feels like a home away from home, it caters to the whole family, everything from our family-style dining to our wide range of activities.

Camp is composed of six accommodation tents (each raised on wooden decks) a communal mess tent for sitting and dining, with a cosy fire place for cold evening, a reception area, a shady deck adjoining the swimming pool (which overlooks a watering hole), all surrounding a spacious lawn dotted with native aloes and acacia trees.

The camp is enclosed by a stonewall which allows you and your children to move around freely and safely, without worry.

Accomodation

Each tent is en-suite with hot and cold running water.

Tent 1 is closest to the mess tent, while tent 6 is furthest away.

Tents 1 and 6 both have a kids' annex which is perfect for families.

All of the tents can be configured into a double or twin bed arrangement.

The camp is powered by solar, with USB charging then tents and charging points in the mess tent and reception.

The camp is surrounded by a wall and electric fence to keep big game out, allowing children to roam freely.

Various activities in camp keep everyone occupied during down-time, such as volleyball, bird watching, local archery, spear throwing, trampoline, and swimming.

The small swimming pool overlooks a watering hole; it provides an idyllic spot for lunch, sundowners, or relaxation between game drives.

The pool is filled with fresh water and is completely chemical-free

- Game drives (day and night)
- Kayaking & Fishing (tilapia and catfish)
- Guided walking
- Bush Breakfast/Picnic Lunch/sundowners
- Camel walks
- Meeting Tala, our resident giraffe

Activities

- Visits to the Mugie School or girls rescue center
- Learn about livestock & rangeland management
- Visits local markets and cultural village- pokot or samburu
- Training exercises with Mugie's anti-poaching Blood Hounds
- Fly camping

As an extra activity, you can play a round of golf on one of Kenya's northernmost golf courses which is set amongst a grove of olive trees, and fenced from wildlife, so that guests can enjoy a jog or stroll in the grounds.

Wildlife

Mugie has thriving populations of Lion, Cheetah, Buffalo, Elephant, Impala, Eland, Zebra-including the endemic Grevy's, Reticulated Giraffe, Jackson's Hartbeest, and Biesia Oryx.

We have three game viewing vehicles from which guests can take in the varied flora and fauna. The hundreds of bird species that reside on Mugie - whether permanent or seasonal residents - mean that there is never a dull moment. Migratory species from the northern hemisphere flock here between November and April. In addition to watching wagtails, weavers, sunbirds, and many more, we have four species of owl in camp!

Ekorian cuisine: fresh air, fresh food...

We offer fresh, home cooked meals to suit different tastes and requirements. Homegrown vegetables, salads, locally sourced fruit and vegetables, Mugie homegrown organic beef, and eggs from our own chickens all make up our daily menus.

More than just a Safari

Embracing the notion of traveling with a purpose, Ekorian offers the chance to engage with wildlife conservation projects, and local community healthcare and education programs, in a practical and impactful way.

We feel privileged to be part of something so special - to live in an environment that is truly precious and to be entrusted with the protection of the animals that live here. Join us in making a positive difference in the lives of others.
