DISCOVER PLATTE ISLAND DIVE SITES

DOMINOES

A lagoon dive site featuring a sandy and turtle grass-dominated bottom. The highlight is a large Porites coral head oasis, around which a vast array of fish species congregate. Divers can expect to encounter various rays resting in the sand and witness turtles and manta rays as the coral head acts as a cleaning station.

Time by boat: 5min

Depth: 10m – 15m

Difficulty: All levels.

MEADOWS

A rolling coral reef structure gently sloping onto a rubble-dominated plateau, Meadows boasts an array of different coral forms that provide shelter for juvenile marine life. Reef sharks and greater barracudas may be seen patrolling the mid-water column. Meadows is an excellent site for both macro photography and spotting larger pelagic species.

Time by boat: 25min

Depth: 12m – 16m

Difficulty: Open water and above

GROOVES

Located on the southeast edge of the outer reef Grooves features large canyon-like creases in the plateau, creating incredible topography. A dramatic landscape, Turtles, rays, and tawny nurse sharks are often found hiding out in these grooves to escape the surge.

Time by boat: 15 - 20min

Depth: 6m - 12m

Difficulty: All levels.

FUSILIER

An outer reef site that features a gentle sloping bottom dominated by rubble and scattered with coral boulders. Offering protection from the current, the boulders act as a safe haven for marine life. Large, mesmerizing, schools of fusiliers light up the surface during descent, batfish and tornadoes of schooling big eye trevally are frequently seen.

Time by boat: 15 to 20min

Depth: 8m – 16m

Difficulty: Open water and above
