

HONEY BEAR FACT FILE

Description

Honey Bear Bush Camp is named after Ava Gardner's character in the 1950's Oscar winning film Mogambo. Our Camp evokes the same spirit of her character: Elegant, classy and sassy with a propensity for adventure. Under canvas in the classic safari style, with an intimate 5 tents. Each of the tents faces the famous Kazinga channel, where you can watch elephant frolic and hippos honking all day long from the comfort of your bed.

LOCATION

Located within Queen Elizabeth National Park in the Kyambura Game Reserve, Honey Bear Bush camp is on the southern bank of the Kazinga Channel about 8 km from Katunguru Village and about 3 km from the Kyambura Gorge.
