SPACE AND PRIVACY – CREATING A SANCTUARY

Chem Chem Lodge, Little Chem Chem & Forest Chem Chem are in their own Wildlife Management Area of 20 000ha (50000a) – no other lodge or residence share this land, so privacy is guaranteed. Nestled in the 'migration corridor' that separates the ancient landscape of Tarangire National Park and the tranquil waters of Lake Manyara.

1. CHEM CHEM LODGE is located on the edge of Lake Manyara in the far west of the Chem Chem private WMA. Here guests enjoy a sensual and exclusive safari and Maasai experience.
2. Connecting the west and east is the corridor. This area is protected for wildlife to move between the Lake Manyara and Tarangire National Parks.
3. LITTLE CHEM CHEM and FOREST CHEM CHEM are located on the eastern side of the Burunge – Chem Chem WMA, adjoining the Tarangire National Park. Here guests enjoy a big game safari experience with day and night drives and walking safaris in the privately managed WMA with exclusive access for guests of Chem Chem.
