

Mpumalanga HELICOPTER CO.

AN EXTRAORDINARY OPPORTUNITY TO
SPONSOR & PERSONALLY EXPERIENCE

RHINO ANTI-POACHING HELICOPTER SURVEILLANCE

IN THE TIMBAVATI PRIVATE NATURE RESERVE

Many guests visiting South Africa's game lodges care deeply about the protection of wildlife, especially Rhinos. They would welcome the opportunity to be directly involved with protecting Rhinos and experience first-hand how their sponsorship makes a significant contribution to a cause that is close to their hearts.

In partnership with the Timbavati Wildlife Protection Unit's Rhino Anti-Poaching initiative, Mpumalanga Helicopters offers visitors to the Timbavati the unique opportunity to fund and participate in an anti-poaching helicopter patrol.

At present air surveillance in the Timbavati Private Nature Reserve is not sponsored. Recognizing what a valuable tool air presence is for rhino anti-poaching efforts, Mpumalanga Helicopter Co. is committed to making regular patrols a reality. With support from visitors to the Timbavati who want to sponsor and experience a surveillance flight, this vital service can be funded.

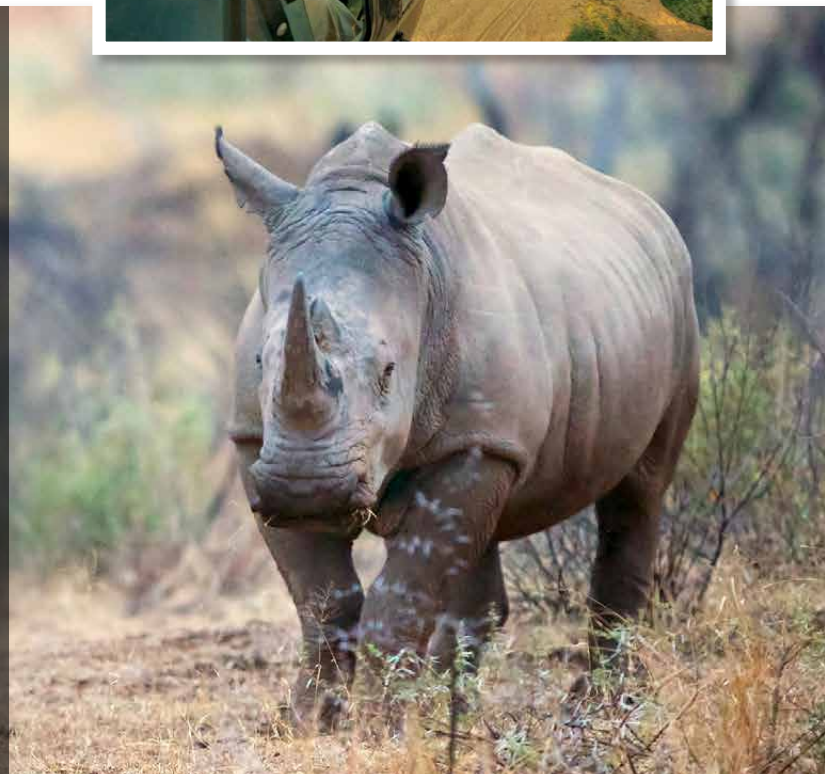

THE EXPERIENCE

.....

Guests will be collected at a helipad closest to their lodge, and in the company of an experienced Timbavati Anti-Poaching Unit Ranger, patrol the property for approximately one hour. While game may be spotted, the primary focus of the flight is to cover the designated area and for guests to gain insight into the Timbavati's intensive wildlife protection programs from a knowledgeable Ranger.

.....

BOOKING DETAILS
