Zambezi River Tiger Fishing

If you are looking for a great morning leisure activity, you can't go wrong with a Tiger fishing excursion. Rated by many sports anglers as the finest freshwater fighting fish in the world, this powerful and swift predator is sure to give you a good run for your money. With over 75 species in the Zambezi, there is a good chance of experiencing that great snapshot moment before you release your catch back into the waters.

The fishing starts at Kalai Island about 9 km above the falls. We then move downstream between the islands, exploring the narrow channels, enjoying fishing, birding, and spotting river wildlife.

WE OFFER NON-FISHING PARTNER RATES

No fishing is permitted during the 3-month spawning period from December to February.
