

# ANGAMA MARA

## *The Photographic Studio*

ANGAMA MARA'S PHOTOGRAPHIC STUDIO IS AN ESTABLISHED WORKSPACE OF CREATIVITY AND STORYTELLING: AN EXCITING HUB OF IMAGERY, CONTENT CREATION, TEACHING AND SHARING

Through the professional guidance of our on-site wildlife photographer and naturalist, guests have the opportunity to attend hands-on private photographic tutorials and editing sessions, both of which are included in the rate. Large screen Apple desktops, loaded with the latest software, are available for guest use.

The purpose is not to create a professional overnight, but rather to help guests come to grips with their own cameras and get them shooting 'off auto'. A little guidance and knowledge builds confidence and ultimately allows for better photographs – the best way to remember a safari. Guest are able to print a small portfolio of their own photographs at \$20 per A3 print on the Studio's photographic printer. Should guests wish to store their images digitally to make space on their cameras for more photographs, USB Storage Devices are available from \$15 - \$25 per device, depending on the storage space.

For guests wishing to make the most out of their photographic safari experience, Angama Mara's on-site wildlife photographer is available to accompany them on a private photographic safari, driven by their Angama Mara guide, at a rate of \$1200 per day - please see Angama Mara's full document on this experience.

Of course guests can also hop online in the Photographic Studio and share daily wildlife sightings with their online communities, keeping loved ones informed of the amazing photographic opportunities they are experiencing in the Maasai Mara.
