

DEDICATED TO
**SAVING AFRICA'S
 RHINO**
 POPULATION

Working in Tourism many of us have the privilege of meeting incredible people who, like you, are deeply concerned about the plight of Africa's Rhino. Many guests would welcome the opportunity to be directly involved and experience first-hand how their funding makes a significant contribution to a cause that is close to their hearts.

In partnership with the Timbavati Wildlife Protection Programme's Rhino Anti-Poaching initiative, Makanyi Private Game Lodge offers its guests the unique opportunity of not only funding much needed anti-poaching patrols, but also personally being part of the anti-poaching air surveillance helicopter patrol they are sponsoring

At present air surveillance in the Timbavati Private Nature Reserve is not funded; recognizing how effective an air presence is in anti-poaching efforts Mpumalanga Helicopters are committed to making regular patrols a reality. With the support of the Timbavati Private Nature Reserve lodge's promotion of this activity to their guests, this vital service can be funded, and a very real difference will be made in the ongoing team efforts to save the rhino.

THE EXPERIENCE

Guests will be collected at a helipad closest to the lodge, and in the company of an experienced Timbavati Anti-Poaching Unit Ranger, patrol the property for approximately one hour. While game may be spotted, the primary focus of the flight is to cover the designated area and for guests to gain insight into the Timbavati's intensive wildlife protection programs from a knowledgeable Ranger.

BOOKING DETAILS

Please note a 24 to 48-hour lead time prior to the flight is necessary.

Please allow up to an hour and a half for the excursion.
