

## Mto Wa Mbu - Arusha

In the morning, departure to Mto Wa Mbu for a cultural tour.

Nestled at the foot of the Rift Valley, Mto Wa Mbu village –« *mosquitoes' river* » in Swahili- benefits from a permanent natural water irrigation. Settled between Natron and Manyara lakes, it's the nearby Ngorongoro area which provides Mto Wa Mbu constant water flows. Coupled with a rich volcanic soil the area is a beautiful and fertile land.

Over the years, lots of people have migrated to this place to settle and take advantage of what the land can offer. No less than 120 tribes and ethnical groups have then learned to live together, each of them bringing their own traditions and specialties.

Our day: welcome and greet of your guide before to walk towards various points of interest

Duration of the visit: approx. **1h30**

**TANGANYIKA EXPEDITIONS**
