Your Day at Sea

Before going on the boat our Marine Guide or Biologist will give a safety briefing and explain how the cage-diving works. Once at sea our Marine Biologist and skipper will give a talk on the sharks and other marine life you will observe. They will explain how we work with the sharks in the area and prepare you for the dive. We spend 2 to 4 hours at sea, depending on the shark activity and how quickly they come to the boat. Be sure to ask as many questions as you can think up! Snacks, water & towels provided.

Cage Diving & Viewing

Our cage takes 6 people at a time. Each person spends about 20-30 minutes in the cage, but you will have the option to dive twice if the sharks and time allow. We provide all diving and safety equipment for you to enjoy your cage diving experience with White Shark Projects. Comfort and security are our focal point. Equipment includes 7mm wetsuits, weight belts, hoods, boots, and mask. No previous diving experience is required and everything will be explained to you.

On board Videographer

We have a professional Videographer on all of our trips who will take professional movies and pictures of your day trip. He will record the ride out, you in the cage and shark activity! After the trip, he will edit the movie and show it to you in our lodge before your departure. Media packages can be purchased at an additional cost of R350, and these will be sent to you via email, or you are welcome to take your own videos and pictures.

After the trip

Once you arrive back on shore, you will return to our lodge, which is just a short walk 30 seconds from the harbour. We offer free luxury shower facilities and a powder room with a hairdryer, so you can have a warm shower and be sorted for the rest of the day. You will then be offered a light lunch and sit down to watch the movie of the day trip. You will then receive a de-brief from the marine guide or biologist about what you saw on the trip and some educational information.
