WEATHER & RECOMMENDATIONS

The climate is dry and the temperatures oscillate between 20°C (68°F) in summer and -3°C (26.6°F) in winter. The duration of the days varies according to the time of the year: during the summer you can enjoy almost 17 hours of day light but during winter, the shortest day reaches 8 hours of light. In the glaciers region, the climate becomes much more humid and the cold coming from the ice marks a clear distinction with respect to the climate of the city. Recommendations: warm outdoor clothing in layers (water-repellent coats, sweatshirts, thermal shirts) sunglasses, sunscreen, trekking shoes and gloves (required for some activities).
