5. Conservancy

- Our private conservancy is 35,000 acres, adjoining the Masai Mara National Reserve and acts as a buffer zone to the Reserve.
- It consists of a varying habitat from Black Acacia woodland areas to a large wetland area.
- The conservancy has a high density of elephant, buffalo, and two separate prides of lions have set up residency.
- Behind the lodge is a sandstone escarpment where we often see leopard, a pack of African wild dogs and the very rare Verreaux's eagle.
