

x2 Art Holidays

Wendy and Virginia have exhibited together since 2004. Their belief, that process is the key to creativity and development, unifies their shared passion and is fundamental in their approach to running their unique and specialised art holidays.

They each come from different creative backgrounds and therefore offer distinctive insights into a variety of artistic approaches and techniques. They epitomize the joy that can be found in the creative process and encourage curiosity, adventure and courage in all those they work with.

Wendy's work has developed from a background career in fashion and graphics, working on magazines and as a fashion director in New York. Her work of figures and landscapes emphasizes colour, texture, line and favours mixed-media - often incorporating print and collage.

Mark-making is key to Wendy's work; its expressive and gesturing quality reflects an individual and personal relationship with her materials and chosen subject matter. Wendy lives and works in Kenya and France.

Virginia has worked as an artist for over 40 years, previously having been in advertising.

Her work is a continuous development of her ability to capture and reproduce a theme in a dynamic mix of spontaneity and control; using pattern, shape and colour. Her work has developed from traditional roots using watercolour and she now works in all mediums combining classical themes and the abstract. Virginia lives in Kent.
