Nogatsaa Pans Chobe Lodge is in the heart of Chobe National Park with some of the best game viewing right on the doorstep. The area remains remote and untouched ensuring an authentic Botswana experience in an area dotted with hides overlooking open grasslands, clay bottom pans and waterholes. Strategically placed for sweeping views of the Kwikamba Pan – the biggest of many clay bottom pans dotting the area – Nogatsaa Pans Chobe lodge offers guests a true in-the bush safari experience reminiscent of yesteryear.
