AESTHETIC MEDICINE

Private clinic Dr. med. Yusuf Yıldırım

AESTHETIC MEDICINE

Major effects will be achieved through minimal intervention. Dr Yusuf Yildirim and his team create a visual balance in the face thus generating more expression, freshness, vitality, individual beauty and youthfulness. The aim: “**beauty in perfect balance**”.

The treatments are carried out in accordance with the natural conditions in order to generate very natural, subtle results.

For an individually coordinated treatment plan, they are using the most modern 3 D diagnostic techniques of the current skin condition.

SERVICES

- Botox treatments such as: frown lines, forehead wrinkles and crow's feet
- Hyaluron treatments such as: dark rings under the eyes, nose corrections with no operation, cheek augmentation, lip augmentation and full-face contouring
- Skin rejuvenation such as: mesotherapy, CO2 fractional laser, carbon laser, ultrasound therapy, radio frequency therapy, intense Pulsed Light and PRP “Vampire Lift”

DR YUSUF YILDIRIM

THE PREMIUM INSIDE OUT LIFTING

A medical skin rejuvenation programme that aiming to revitalize the skin without surgery in all tissue layers. Synergy effects of laser, facial and thermal treatments (ultrasound, radiofrequency) are also highly effective for a rejuvenated and fresh neck and décolleté region.

FACE SCULPTING: THE HOLISTIC REFRESHMENT

Defined facial areas are treated accordingly with botox and hyaluron.

Meanwhile the natural facial expressions are maintained.

The holistic wrinkle treatment is rounded off by stimulating the formation of a new collagen connective tissue in the subcutaneous fatty tissue, for a long-lasting fresh result.

BODY CONTOURING

Reduction of local diet and exercise-resistant subcutaneous fat pads without surgery.
