THE GREAT RIFT VALLEY TREK EMPAKAI TO NATRON TREKKING PACKAGES TOUR OPERATOR RATES 1st January 2019 to 31st December 2019

US Dollars including VAT

OVERVIEW

We have created 3 camps that guests can walk between. These are:

1. **EMPAKAI CAMP:** a new, special, private camp on the rim of Empakai Crater. This is the starting point of The Great Rift Valley Trek and is used when clients want to walk into Empakai crater and or want more time walking.
2. **LEONOTIS CAMP:** located below Naiobi village this is a conservation project whereby we have leased a grove of acacia and are protecting it from being cut down by putting in our second camp. Guests can use this as the 2nd night in the trekking itinerary OR take out Empakai camp and use this as the first night. From here you trek to the base of Lengai down the rift valley escarpment and transfer to Lake Natron Camp.
3. **LAKE NATRON CAMP, NGARE SERO:** this is our existing established camp, on the edge of Lake Natron, and offers a fine finale to the trekking expedition where guests can do other activities such as waterfall gorge walks, flamingo walks and dramatic sundowners, or just relax!
