

In 2020, Imvelo's impact on communities and conservation was valued at over

\$ 700 000

We are extremely grateful for all your support

### Food security

We've provided 350 000 school lunches for children, taking food directly to over 60 villages when schools closed. We purchased 60 tonnes of maize meal for the communities along Hwange's southern boundary and have started a seed project to look at "climate smart" seed varieties.

### Water security

We've continued to maintain over 100 boreholes in the communities along the border of Hwange National Park. We've also partnered with Wills Wells to drill new boreholes, including 4 newly drilled and 3 equipped with bush pumps for villages that have not had water for sometimes 3, 5 or 10 years.

### Water for Wildlife

We've pumped 138 million litres via our 16 wildlife pumps, 6 of which are solar hybrid pumps allowing us to pump throughout the dry season. Rains finally arrived in November!

### Conservation

Our Cobras Community Wildlife Protection Unit is made up of 25 men, most of which are based inside an established wildlife sanctuary. They have inspired Junior Cobras within schools and maintained training, patrolling and human-wildlife resolution activities. We have also helped distribute over 160 ration packs for National Parks and Forestry rangers to allow them to better protect important habitats and wildlife.

### Healthcare

Sidinda Clinic received medication and equipment and main buildings were fitted with burglar bars; seeds and a new borehole were also provided for the clinic garden. Ngamo Clinic phase 1 is complete, including a main wing, staff cottage, ablutions and 3 waste management pits to serve 2,000 people. Finally, our 2020 Smile and See Safari was replaced by a Covid-19 compliant Smile Roadshow, which included preventative dental and eye care presentations and the distribution of 3,000 toothbrushes.

### Education

Unfortunately Zimbabwe's education system has suffered tremendously in 2020 due to Covid-19 and teachers not returning to work most of the year. We still distributed 10,000 supplies and learning aids, such as exercise books as well as 1400 textbooks to help where possible.

### SUPPORT OUR WORK

Visit our website for more information on our different projects and their impact.
