

MOBILE EXPEDITIONS

*Our specially developed mobile camps, suitable for either hot or cooler climates, can be set up at remote locations throughout Kenya. From the dry bush country of Northern Kenya, to the forests of the Matthews Range, to the shores of Lake Turkana, our mobile camps allow you to experience the beauty, solitude and fascinating tribal cultures of rarely visited destinations.*

*The camps are extremely comfortable, with a spacious 'mess' tent and large sleeping tents with en-suite showers and flush loos. Depending on the location, the camps are accessed by road, plane or helicopter.*
